

Peer partner review: Tyler Nguyen

Description: All in all, my partner was amazing. No complaints did what was assigned and went up and beyond. Tyler was a huge help trying to get the margins and padding right. Luckily I was able to figure out all the hard parts. He show's and teaches me to think outside the box.

All and all I give my partner an A. He deserves it for his dedication and leadership. All and all he was great. I would recommend him to other people.

Peer partner review: Raudel Alvarado

Description: All in all my partner was pretty good. He was assigned to do the page and he went up and beyond with that. There were some issues like padding but overall great team player.

Great when it came to asking questions. Communication skill was great to talk through the whole project. All and all he was great. I would recommend him to other people.

My Review about myself:

Overall I believe I did great. I was assigned to do the menu and I believe I did amazing. One main issue I was having was padding as well as trying to figure out how to align everything with padding and to move the content to be bottom right from each other. Asking questions when I was stuck I did great pulling myself out.
